INTERNATIONAL PRODUCT GUIDE

JUPITER

## SUPPORT FOR MUSIC EDUCATION AND PERFORMANCE

In 1980, Jupiter wind instruments was established by K.H.S. Musical Instrument, Co., Ltd, one of the largest musical instrument producers in the world today. As an innovative company with global resources, we are dedicated to selecting the finest materials available and maintaining state-of-the-art, company-owned manufacturing facilities to ensure superior quality, performance, and reliability for all our instruments.

## LEAD FREE SOLDER

As a member of the global community, Jupiter is dedicated to the development of high quality wind instruments while maintaining responsible environmental practices. All of our instruments have been made with lead-free solder since 2013.

 **JUPITER**  
The First  Choice

With decades of experience in instrument manufacturing, we bring together craftsmanship, innovation, and passion to create instruments that inspire and enrich the lives of musicians and their audiences worldwide.

## JUPITER WOODWINDS

Driven by the desire to perfect the art of instrument making, Jupiter strives to seek innovative ways to enhance music making for students, educators and professional players.

Every woodwind model is crafted using the finest materials and precision-engineered to meet the highest quality standards.

Jupiter offers some of the finest performing woodwind instruments in the industry. From piccolos to baritone saxophones, Jupiter exceeds expectations at all levels, whether for beginners, aspiring musicians, or discerning educators.

## BALANCE & COMFORT

The innovative **Waveline™** design reduces the distance between the headjoint and keys which enables players to maintain proper posture while practicing. This enhances player comfort and allows for longer periods of practice and enjoyment.

The Patented Waveline Headjoint allows younger flutists to maintain natural posture and correct hand position which is often difficult with the length of standard flutes.

reddot design award  
honourable mention 2013

### WAVELINE™ FLUTES

MODEL	KEY	BODY MATERIAL	HEADJOINT STYLE	RANGE	KEY STYLE	G KEY	CASE
JFL700WD	C	Silver-Plated Nickel Silver	Waveline	Low D	Assisted Fingering	Offset	Polyfoam
JFL700WE				Low C	Plateau/Split E Mechanism		
JFL700WR				Low C	Open Hole/Without Split E Mechanism	Inline	
JFL700WRE			Straight/Sterling Silver Riser	—	Open Hole/Split E Mechanism	Offset	
JJFLH-700WX				—	—	—	ABS Hard Shell (w/ Cover)

**Grows With You**  
The Custom Extension Kit includes a barrel and headjoint with a sterling silver riser to convert the JFL700WE, JFL700WR, and JFL700WRE into a true intermediate flute.

## BRILLIANCE &amp; ARTISTRY

Jupiter offers piccolo choices for every player and genre. Exceptional intonation and response, along with reliable keywork make Jupiter piccolos an easy choice for both indoor and outdoor use.

JPC1000

JPC1010

JPC1100E

Assisted fingering keys allow smaller hands to play with better hand positioning improving overall technique and playing comfort.

Only Jupiter provides a diverse flute selection for the smaller player, perfect for a variety of applications. Jupiter's unique Assisted Fingering Key system features offset finger buttons to reduce the normal hand spread, making flute playing more comfortable.

See more details about MyCase on page 38, 39

The Jupiter JBC1000 bass clarinet features ergonomic key mechanisms that facilitate easier fingering, especially for those that play both soprano and bass clarinet. A newly-crafted bell projects a dark, rich tonal quality with exceptional clarity and power. The addition of blued-steel springs gives the player enhanced key responsiveness and balanced action in all registers. For ease of assembly, a new bell tenon design provides a solid seal that is stable yet easy to disassemble. This instrument is offered in either a one-piece case or in a multi section case for easy carrying.

## TONAL FOCUS AND PROJECTION

The **Jupiter 1100 Performance Series Saxophones** are the next step for the advancing saxophonist. With professional mechanisms and sona-pure™ necks, these instruments are an excellent choice for all musical styles.

JAS510

JAS700

JAS1100

JTS500

JTS700

JTS1100

Jupiter saxophones owe their exceptional playability to the skilled craftsmanship of our experienced artisans.

These instruments are built to the highest quality standards using the latest technology available. After final assembly, they are adjusted to the finest tolerances to ensure the instruments perform flawlessly. This attention to detail makes Jupiter the sound choice for students, educators and performers of all genres.

Each Jupiter saxophone is equipped with the highest grade blued-steel springs and then meticulously adjusted to the perfect touch. The end result is an incredibly smooth, even key action in all registers of the instrument.

## JUPITER BRASS

Using meticulously chosen brass, nickel, chrome, and stainless steel, Jupiter combines premium materials with stringent manufacturing standards to produce an exceptional final product.

From trumpets to tubas, Jupiter offers a complete line of brass instruments to meet the needs of beginning players, aspiring musicians and discerning educators alike.

JTR500

JTR1100S

JTR700

JTR700R

JTR1110R

JTR1150

The Rose Brass Resonance Rings on the JTR1150 and JTR1160R reduce the effort required to play in higher registers, mitigating fatigue associated with extensive practice sessions.

Well-developed musical skills come from a strong sense of discipline and desire. Jupiter trumpets will help you achieve your goals with an instrument that is articulate and responsive to your ever-growing love of music.

# The First Choice

FOR FORMED AND COVERED

## Durable Construction

Upgraded hardware, including heavy-duty hinges, latches, and valance, improves case and instrument lifespan. Scratch resistant textured ABS shell maintains a modern aesthetic. Secure nest provides enhanced instrument protection.

# MyCase

*"This Jupiter case raises the bar in terms of durability, protection for student wind instruments."*

**-KEITH HEIM- BAND DIRECTOR  
WEST WILSON MIDDLE SCHOOL, USA**

## Securely Stackable

Interlocking design provides stability. Stacking ability reduces space needed for storage. Exclusive stackable trombone case eliminates need for precarious upright storage.

# TOGETHER, WE GO FURTHER.

## Jupiter Low Brass Case

*Provides maximum protection when storing or traveling with your valuable instrument.*

The Jupiter low brass cases accompany players for practice and performance, providing exceptional protection for their instrument.

### Modern yet Functional

Shock-absorbing grooves are designed to provide superior protection and a sleek appearance.

### Safe and Secure Interior

Plush felt lining with a padded interior pocket for a soft and durable cradle.

### Easy to Carry

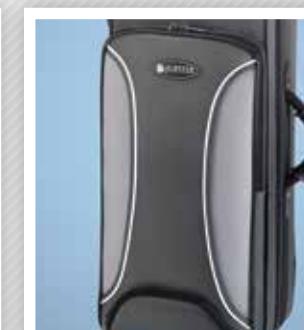

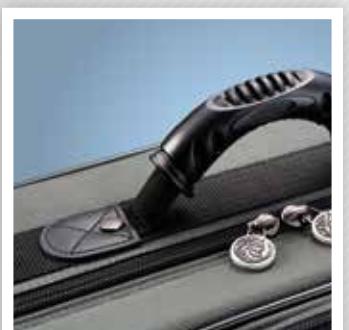

The lightweight and durable aluminum frame allows for smooth travel when carrying or rolling.

### Effortless Mobility

Wider wheel base ensures stability when pushing or pulling tilted on the two primary wheels. The new four-wheel design also allows for easy upright maneuvering as well.

- Sturdy handle
- Jupiter icon zipper slider

- Lightweight case
- Ergonomic padded shoulder strap with quick release system

- Reflective binding

- Front pouch for accessories
- Water repellent music sheet pocket

# PACKAGED FOR PERFORMANCE

Jupiter Mouthpieces and Instrument Care accessories are designed and manufactured to meet the demands of today's students and educators. Our mouthpieces are machined to exact tolerances using the most commonly preferred specifications, and come in a variety of sizes for both woodwind and brasswind instruments. Swabs and polishing cloths are made of the finest fabrics that won't harm the finish of an instrument, yet clean and dry quickly and efficiently. Oils and lubricants are made in the United States to the highest performance standards and will ensure your instrument remains in optimum condition.
