

JUPITER.

INTERNATIONAL PRODUCT GUIDE

SUPPORT FOR MUSIC EDUCATION AND PERFORMANCE

In 1980, Jupiter wind instruments was established by K.H.S. Musical Instrument, Co., Ltd, one of the largest musical instrument producers in the world today. As a progressively minded company with global resources, KHS is dedicated to the selection of the finest materials available and maintains state-of-the-art, company owned manufacturing facilities in order to ensure superior quality, performance, and reliability for all our instruments.

LEAD FREE SOLDER

As a member of the global community, Jupiter is dedicated to the development of high quality wind instruments while maintaining responsible environmental practices. All of our instruments have been made with lead-free solder since 2013.

JUPITER WOODWINDS

Driven by the desire to perfect the art of instrument making, Jupiter strives to seek innovative ways to enhance music making for students, educators and professional players.

Every woodwind model is made with finest materials and is precision engineered to meet highest quality standard.

Jupiter offers the best performing woodwind instruments in the industry. From piccolos to baritone saxophones, Jupiter exceeds expectations at all levels, whether for beginners, aspiring musicians, or discerning educators.

BALANCE & COMFORT

The innovative **Waveline™** design reduces the distance between the embouchure and keys which enables players to have a natural posture and maintain a straight spinal column while practicing. This improved posture enhances player comfort, facilitating engagement and allowing for longer periods of practice and enjoyment.

Beginning flutists often develop unnatural posture and poor hand position from playing standard length flutes.

JFL700WD

The Perfect Fit
Assisted fingering key cups on the JFL700WD help the student to play more comfortably.

JFL700WE

Freedom of Expression
The JFL700WE comes standard with split E mechanism, trill keys, and C foot joint, expanding the student's musical range.

JFL700WRE

JJFLH-700WX

Grows With You
The Custom Extension Kit includes a barrel and headjoint with a sterling silver riser to convert the JFL700WE, JFL700WR, and JFL700WRE into a true intermediate flute.

EXPRESSION & ELEGANCE

The **Jupiter 1100 Performance Series Clarinet** possesses modern professional features that enhance the musical experience for players with maturing abilities. The sound, feel and look of the 1100 Performance Series exceeds expectations for an advanced level instrument.

JCL700

JCL750

JCL1100

The Intonica barrel is only available with select JCL700 series models. Through easy adjustment of length, intonation can be optimized by the player.

The JCL1100 includes a French-style case with cover that offers both stylish appearance and lightweight protection.

The 700 Series is the new standard for the beginning clarinetist. Available in both Grenadilla Wood and ABS body materials, these instruments are built to produce a full, rich tone quality with exceptional intonation and playability.

Designed for Comfort
Specially contoured E^b/B^b and B/F# key mechanisms render a more comfortable feel, making the transition from soprano clarinet to bass clarinet easier.

JBC1000

The low Eb key on the JBC1000 is mounted on the body of the instrument, protecting the key mechanism and stabilizing proper key regulation.

JKC-BC45PA

The Jupiter JBC1000 bass clarinet features ergonomically-fitted key mechanisms that facilitate easier fingering, especially for those that play both soprano and bass clarinet. A newly-crafted bell projects a dark, rich tonal quality with exceptional clarity and power. The addition of blued-steel springs gives the player enhanced key responsiveness and balanced action in all registers. For ease of assembly, a new bell tenon design provides a solid seal that is stable yet easy to disassemble. This instrument is offered in either a one-piece case or in a multi section case for easy carrying.

TONAL FOCUS AND PROJECTION

The **Jupiter 1100 Performance Series Saxophones** are the next step for the advancing saxophonist. With professional mechanisms and sona-pure™ necks, these fine instruments are an excellent choice for all musical idioms.

The hands of experienced, well-trained artisans are the key to Jupiter saxophone playability. These instruments are built to the highest quality standards using the latest technology available. After final assembly, they are adjusted to the finest tolerances to ensure the instruments perform flawlessly. This attention to detail makes Jupiter the sound choice for students, educators and performers of all genres.

CHANGE IT UP!

with *MyCase*

"This Jupiter case raises the bar in terms of durability, protection, fashion, and fun for student wind instruments."

**-KEITH HEIM - BAND DIRECTOR
WEST WILSON MIDDLE SCHOOL, USA**

"My students are very excited about this. It's a lot like customizing your phone case, which is a very big deal at this age."

**- MELISSA LABONTE - BAND DIRECTOR
KICKEMUIT MIDDLE SCHOOL, USA**

Personalized Style

Interchangeable decals leave no residue and allow for easy customization. More decal choices at: MyCase.JupiterMusic.Com

Durable Construction

Upgraded hardware, including heavy-duty hinges, latches, and valance, improves case and instrument lifespan. Scratch resistant textured ABS shell maintains a modern aesthetic. Secure nest provides enhanced instrument protection.

Securely Stackable

Interlocking design provides stability. Stacking ability reduces space needed for storage. Exclusive stackable trombone case eliminates need for precarious upright storage.

Jupiter Low Brass Case

Provides maximum protection when storing or traveling with your valuable instrument.

The Jupiter low brass cases accompany players for practice and performance, providing exceptional protection for their instrument.

Easy to Carry

The lightweight and durable aluminum frame allows for smooth travel when carrying or rolling.

Modern yet Functional

Shock-absorbing grooves are designed to provide superior protection and a sleek appearance.

Safe and Secure Interior

Plush felt lining with a padded interior pocket for a soft and durable cradle.

Effortless Mobility

Wider wheel base ensures stability when pushing or pulling tilted on the two primary wheels. The new four-wheel design also allows for easy upright maneuvering as well.

PACKAGED FOR PERFORMANCE

- Sturdy handle
- Jupiter icon zipper slider

- Lightweight case
- Ergonomic padded shoulder strap with quick release system

- Reflective binding

- Front pouch for accessories
- Water repellent music sheet pocket

Jupiter Mouthpieces and Instrument Care accessories are designed and manufactured to meet the demands of today's students and educators. Our mouthpieces are machined to exacting tolerances using the most commonly preferred specifications, and come in a variety of sizes for both woodwind and brasswind instruments. Swabs and polishing cloths are made of the finest silk weave fabric that won't harm the finish of an instrument, yet clean and dry quickly and efficiently. Oils and lubricants are made in the United States to the highest performance standards and will ensure your instrument remains in optimum condition.
